# *About Our* **CODIUM DIGITAL**

Codium Digital is a Bangladesh-based technology powerhouse specializing in high-stakes software engineering and professional digital identities. We bridge the gap between complex business challenges and elegant, high-performance technology.

**4+**  
YEARS OF  
INDUSTRY  
EXCELLENCE

**75+**  
SUCCESSFULLY  
DELIVERED  
ENTERPRISE  
PROJECTS

We don't just build platforms; we create the digital infrastructure that empowers organizations to improve operational efficiency and dominate their market.

# *Our* **SERVICES**

Brand Strategy

SEO

UI/UX Design

support & maintenance

Business Website Development

Brand Marketing

Custom software solutions

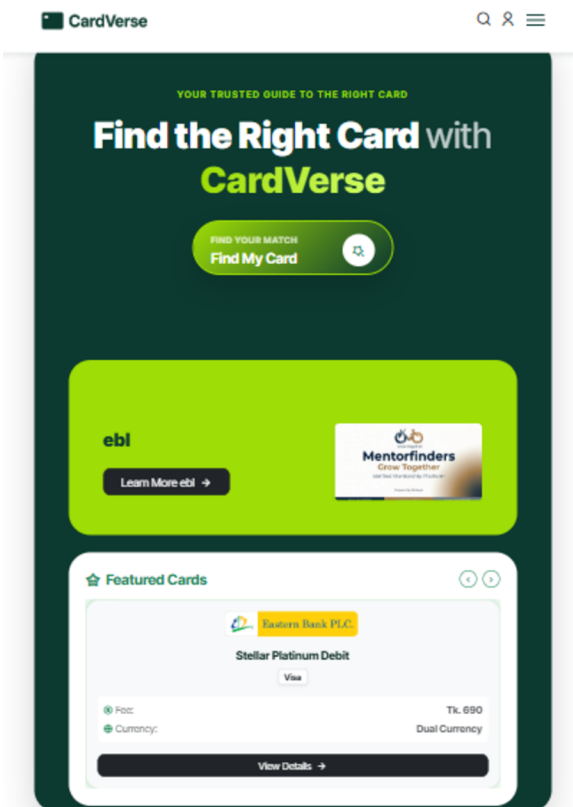

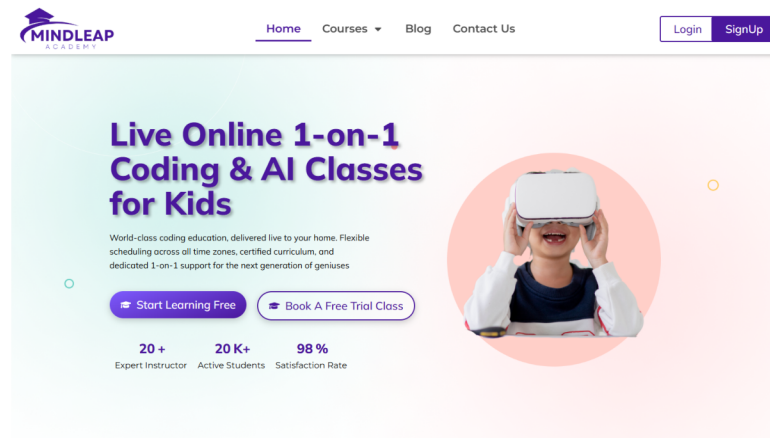

Strategic Digital Marketing

Mobile app development

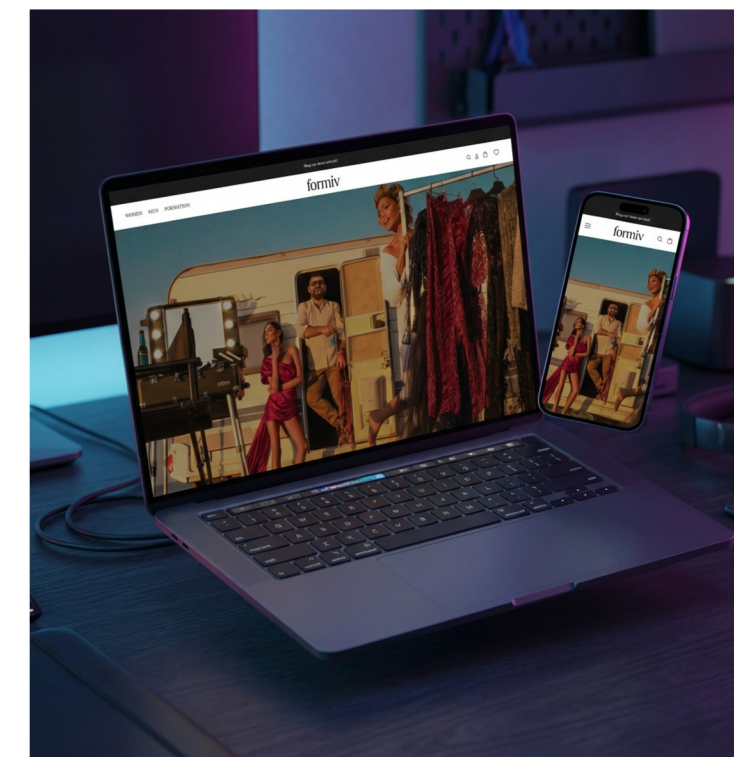

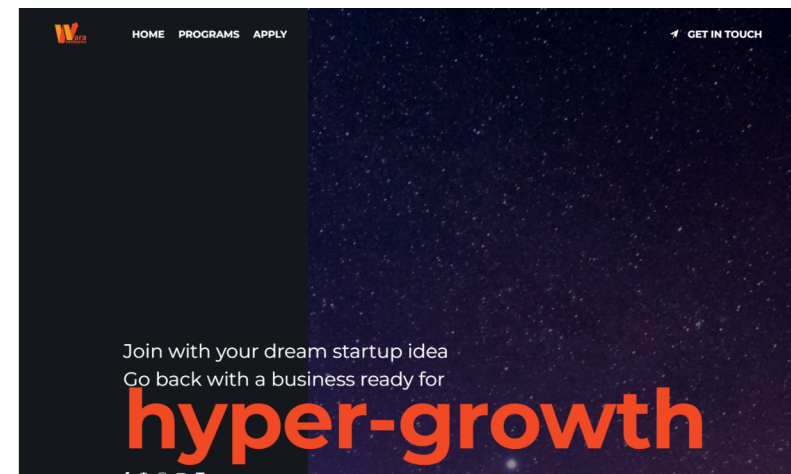

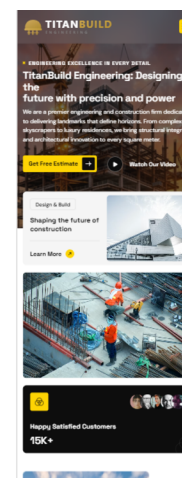

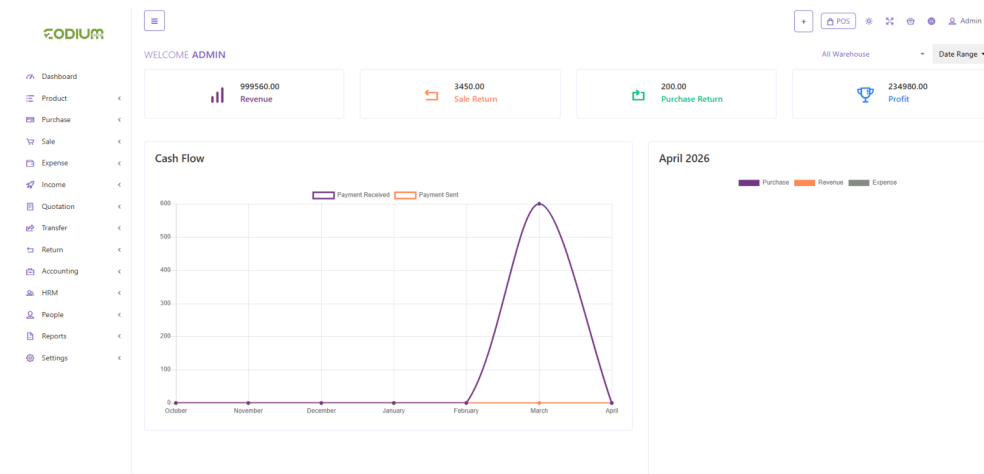

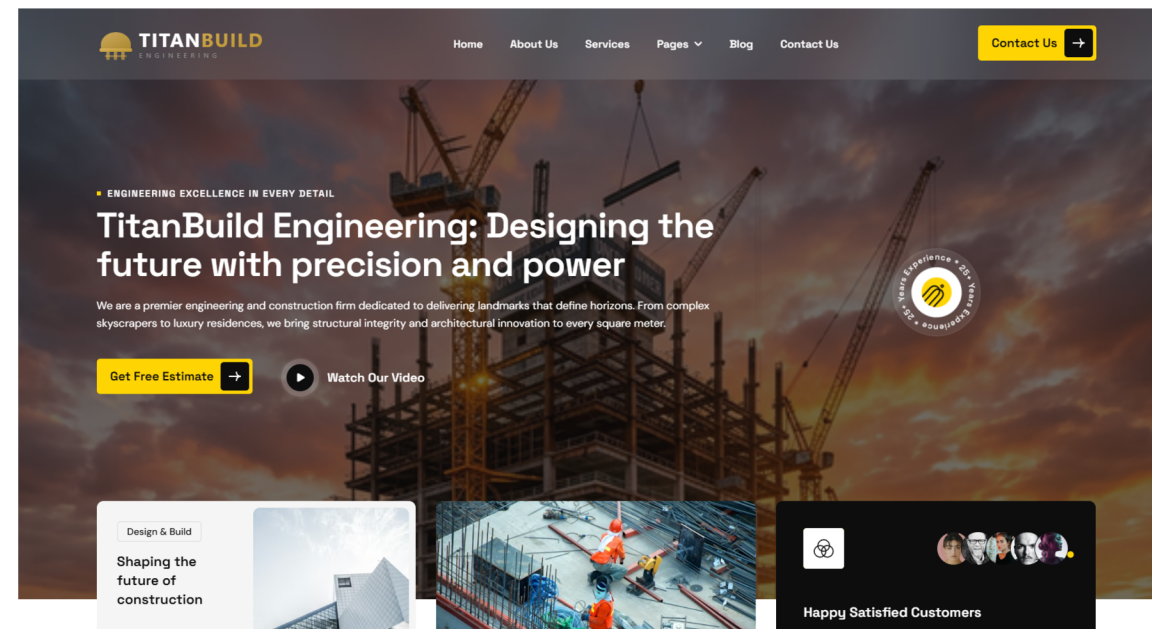

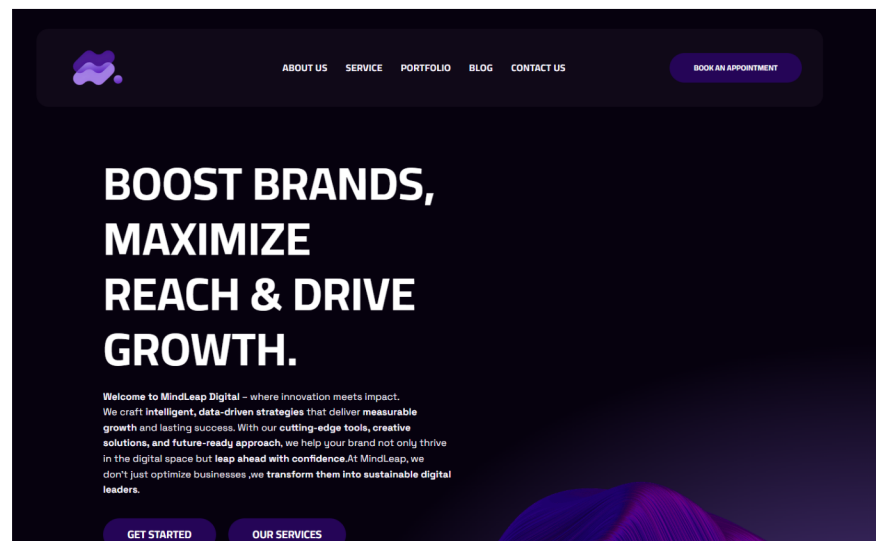

E-commerce & Online platforms

# Our PROJECTS

We help you bridge the gap between complex banking fees and your financial goals. Compare 50+ cards from BRAC, City, EBL, and more in seconds.

## Mindleap Academy

*Mindleap Academy is a premier online EdTech platform dedicated to delivering live, 1-on-1 coding and Artificial Intelligence classes specifically designed for children.*

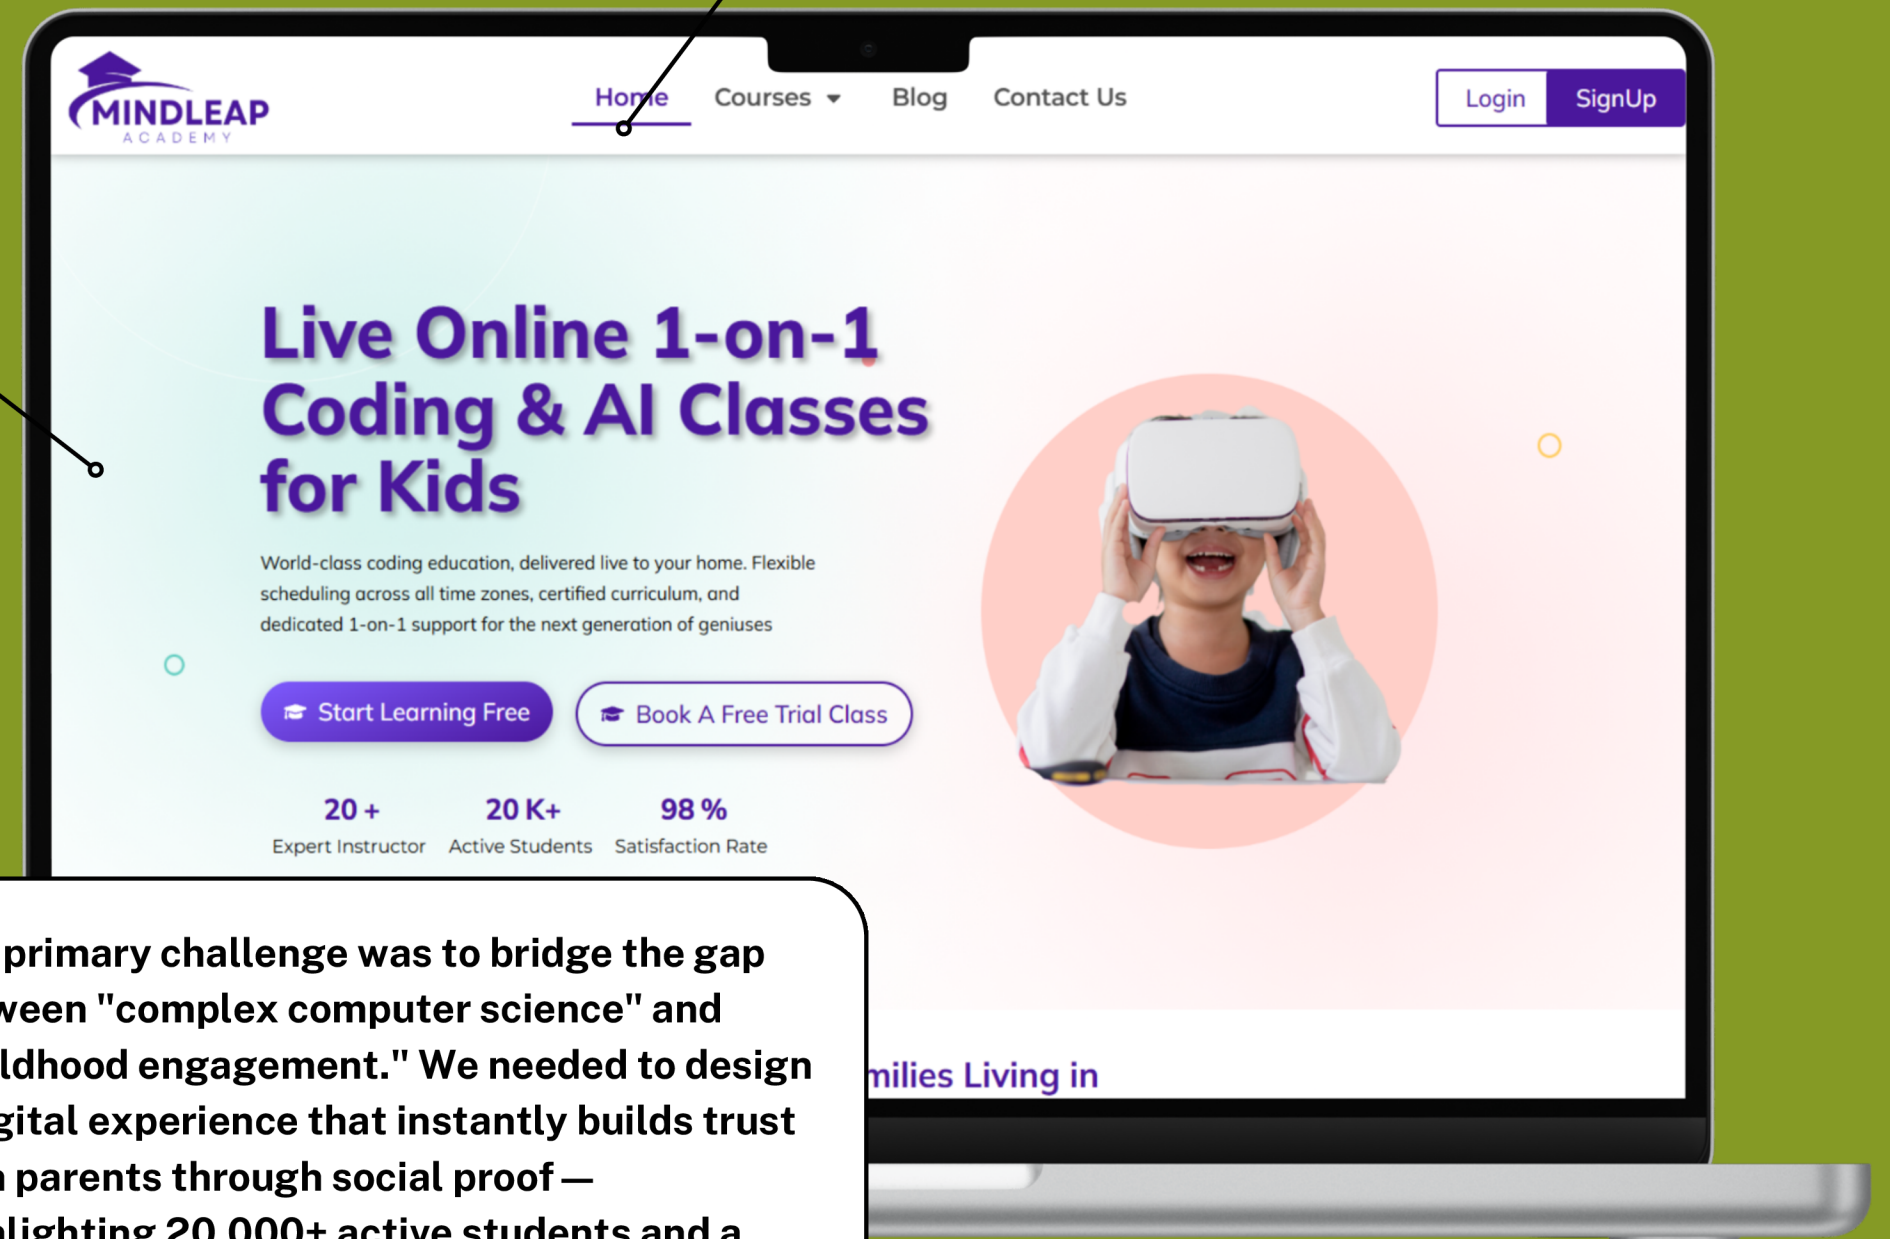

## THE CONCEPT

*The execution is built around the concept of "Digital Literacy through Human Connection." Unlike automated coding apps, Mindleap emphasizes live, expert-led interaction to foster real-world problem-solving skills.*

1

# EdTech Company

**Web Development, SEO, Digital Marketing, and SMM**

**The primary challenge was to bridge the gap between "complex computer science" and "childhood engagement." We needed to design a digital experience that instantly builds trust with parents through social proof — highlighting 20,000+ active students and a 98% satisfaction rate — while remaining vibrant and approachable for young learners.**

2

# Telehealth platform

Web Development, Digital Marketing, SMM, Email Marketing, Content Writing

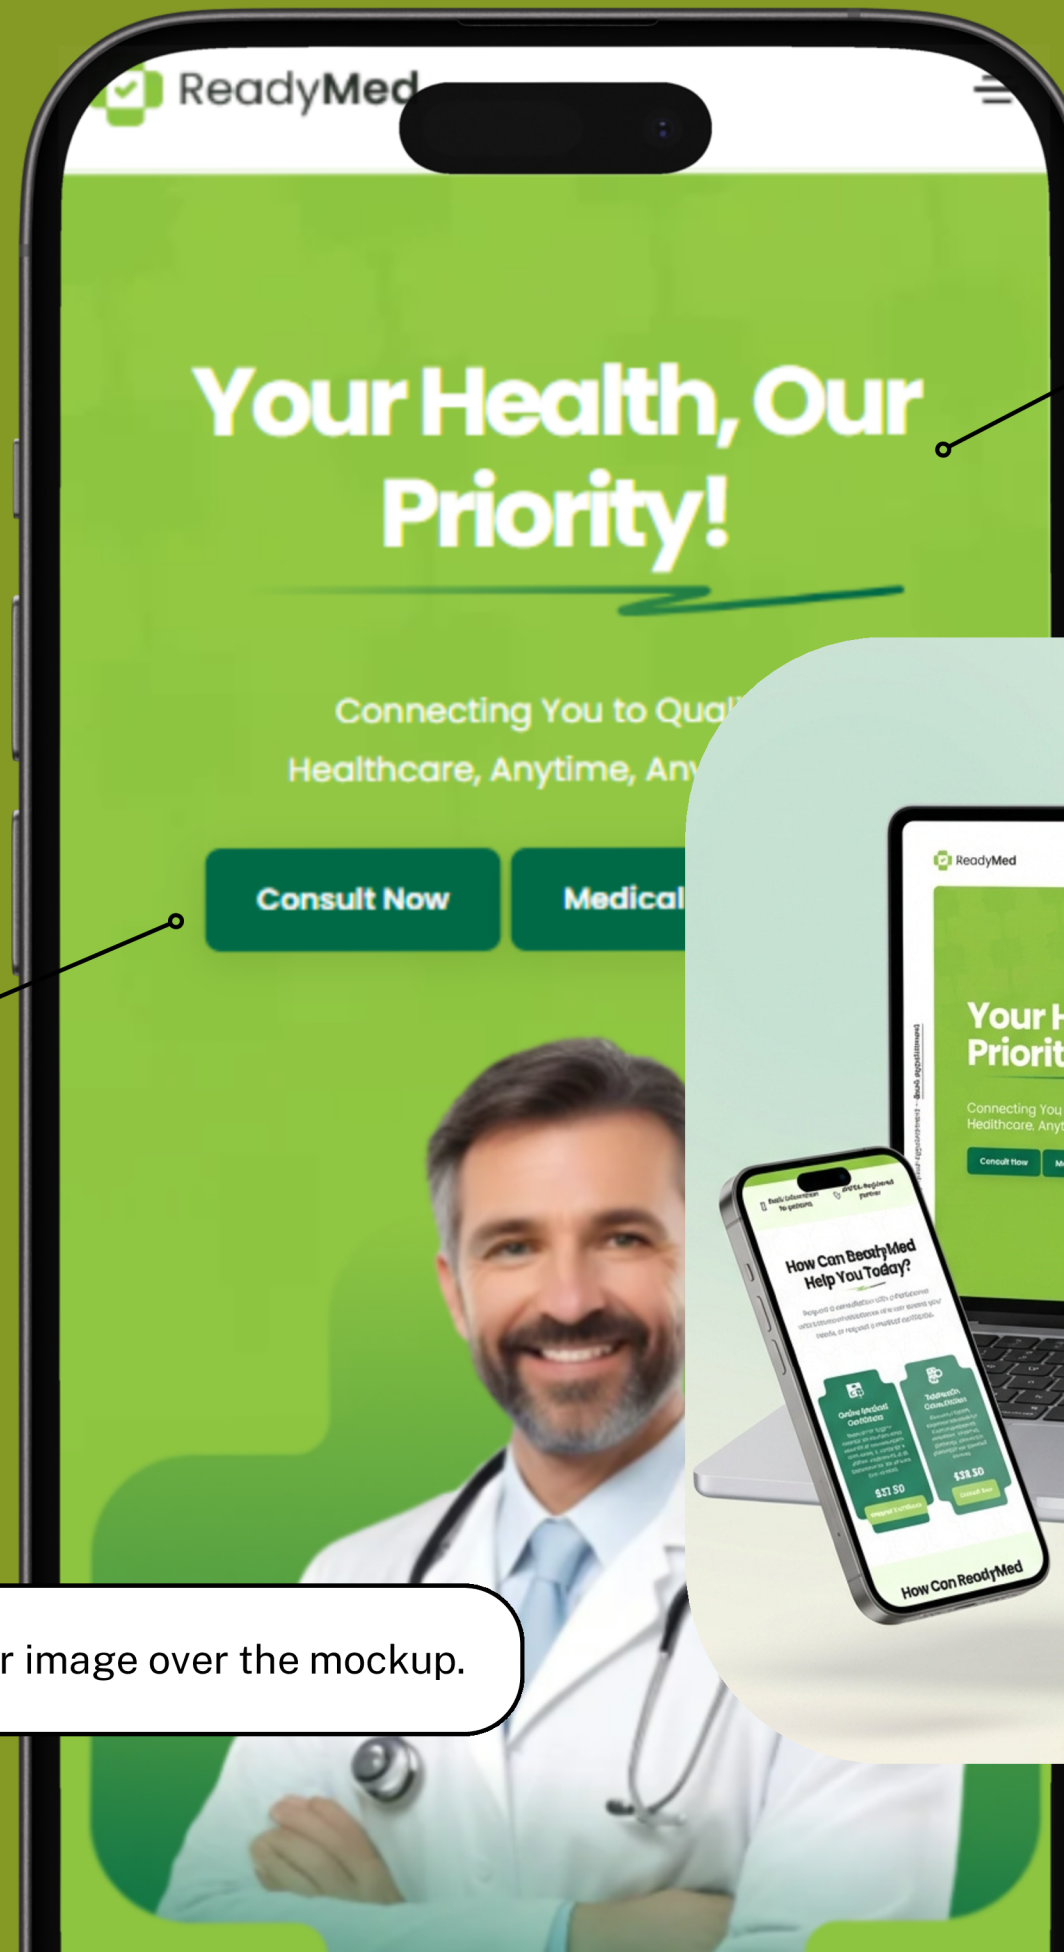

ReadyMed

An Australian-based powerhouse specializing in workplace health, injury management, and 24/7 remote medical support.

Tip: Drag and drop your image over the mockup.

THE CONCEPT

The core concept was to transform a clinical medical process into an intuitive, "service-ordering" experience that reduces patient anxiety and increases operational speed.

OUR FEATURES

Driven by passion for quality 🏗️ and innovation, we build 🌱 spaces that reflect strength, sustainability, 👥 and lasting value

**Innovative Design Approach**  
We combine creativity with functionality to deliver designs that are both visually striking and structurally sound.

- Our architects embrace modern trends and timeless principles.
- We merge creativity and practicality to design spaces that last.

👤 From vision to structure - [Where Creativity Meets Construction Excellence.](#)  
0.3/5 ⭐⭐⭐⭐⭐ From 4200+ Reviews

**TitanBuild Engineering:** Designing the Future with Precision and Power TitanBuild is a high-performance real estate and construction platform engineered to redefine industry standards through technical excellence.

## Formiv

*Codium Digital spearheaded the end-to-end digital evolution for Formiv, a US-based premium lifestyle brand. We moved beyond standard retail to create a high-performance sales engine tailored for the competitive North American market.*

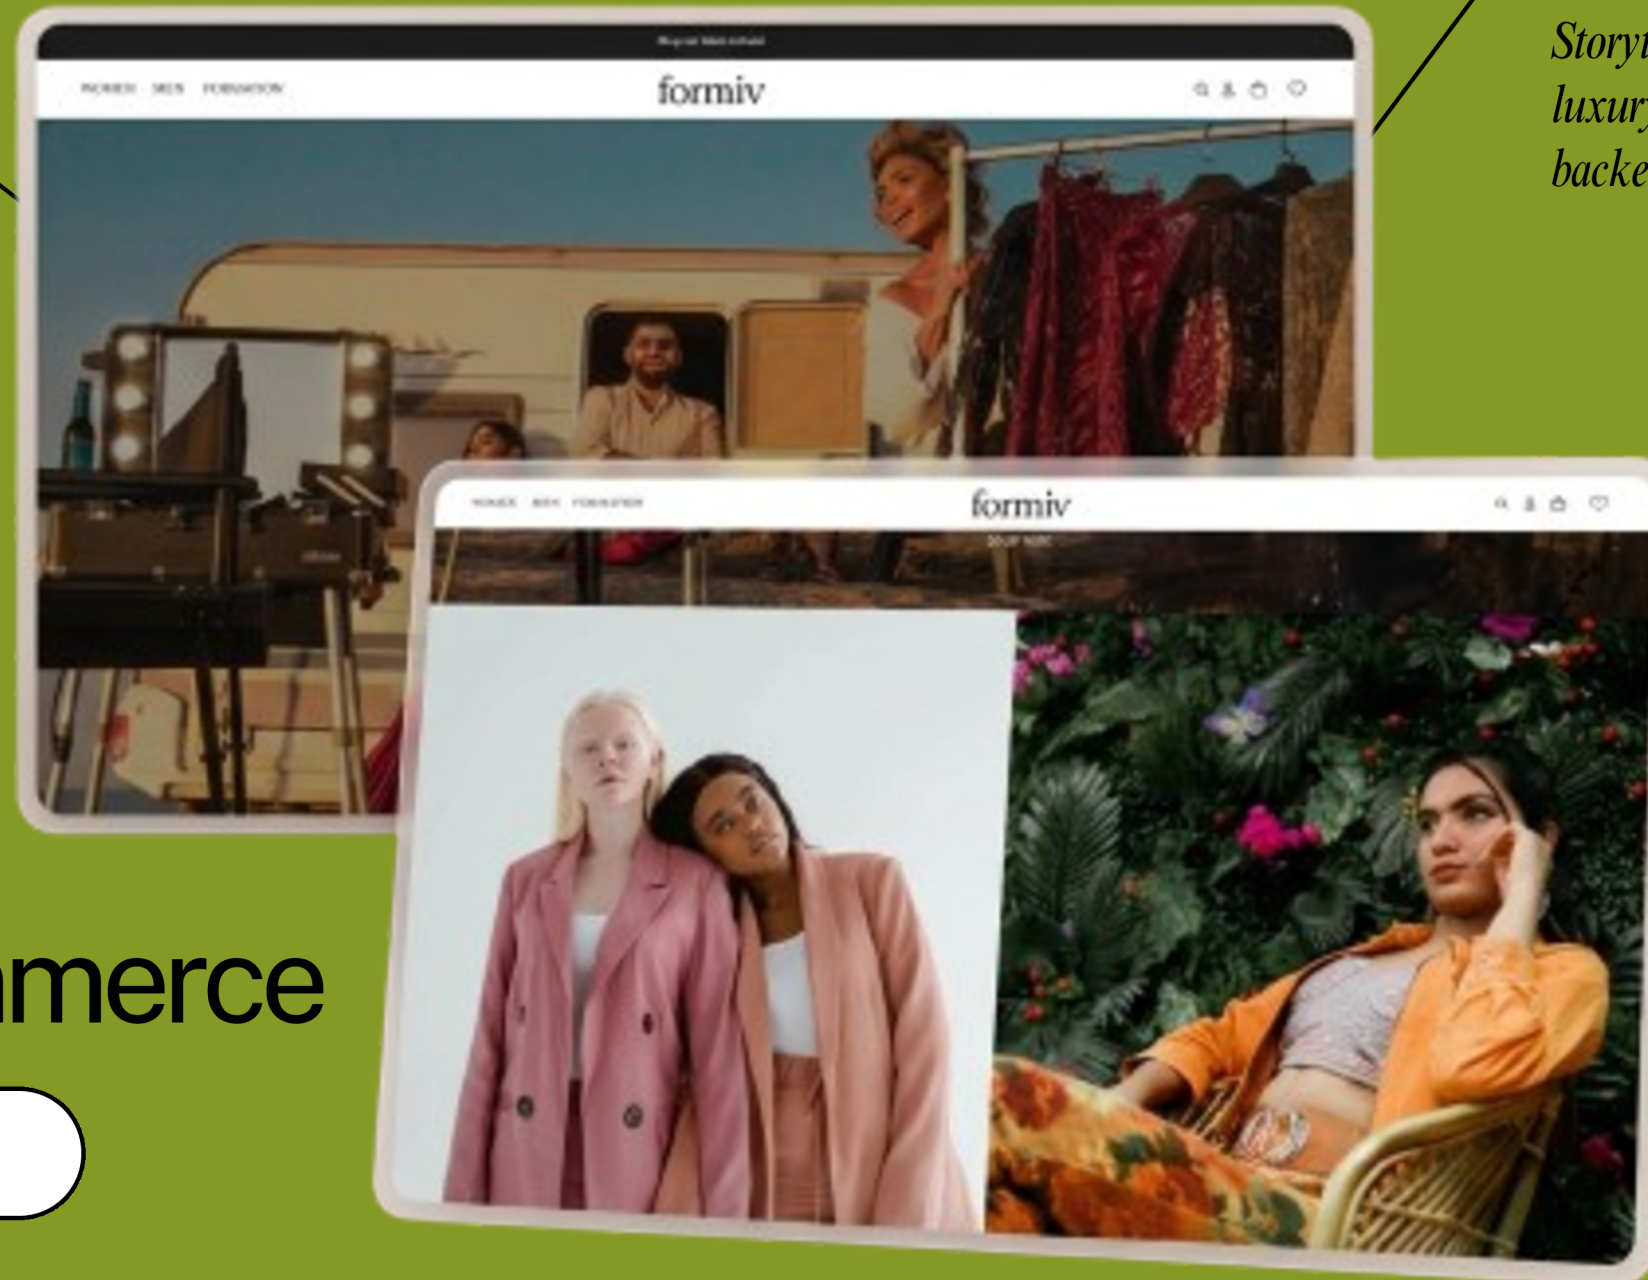

4

# Premium E-Commerce

**Web Development, SEO, UI/UX**

## THE CONCEPT

*The execution is built around the concept of "Visual Storytelling through Technical Precision," ensuring that luxury brand aesthetics are supported by a military-grade backend.*

**The challenge for Formiv centered on establishing a dominant presence within the highly competitive US lifestyle market while maintaining a delicate balance between high-end aesthetics and technical performance. We had to engineer a custom Shopify architecture capable of hosting massive, high-definition editorial media without compromising elite page speeds or mobile checkout fluidity.**

## CardVerse BD

*CardVerse BD is a specialized financial technology platform engineered to serve as the ultimate comparison tool for credit and debit cards across all major Bangladeshi banks.*

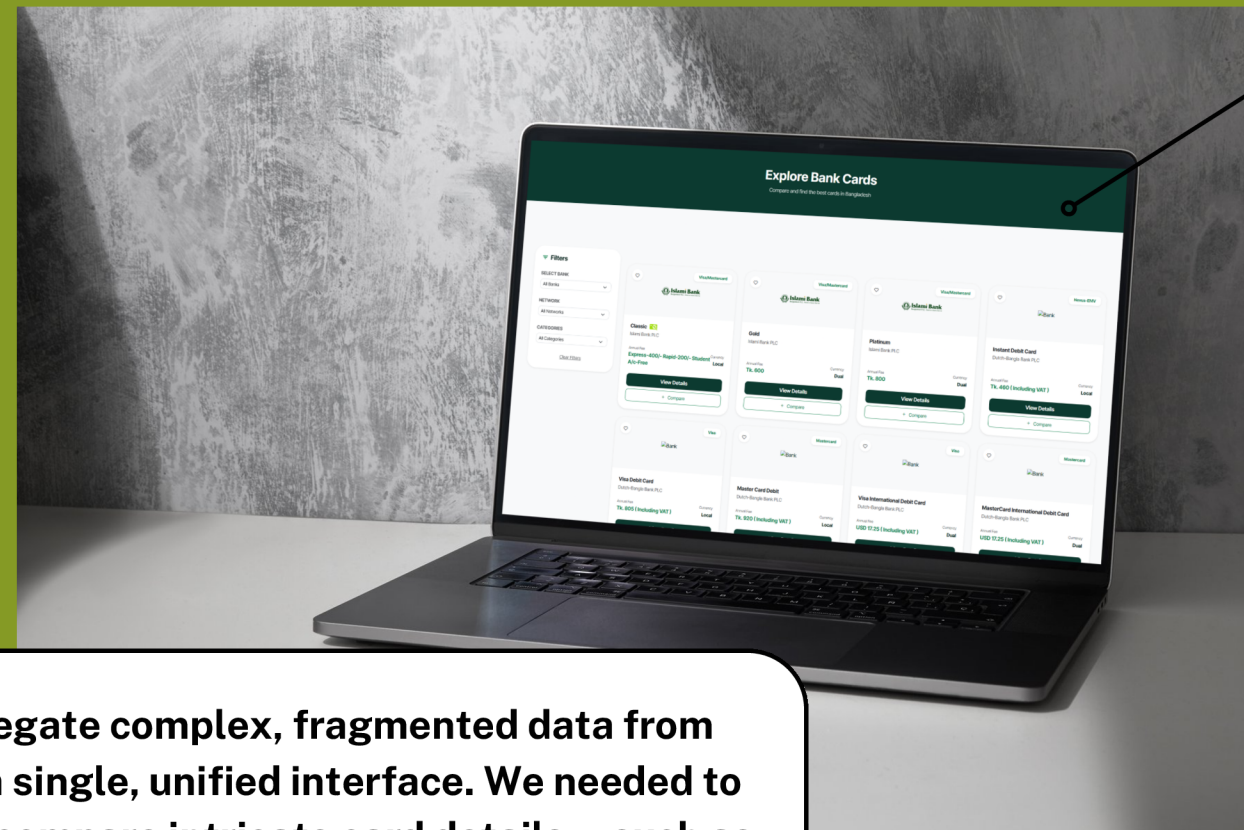

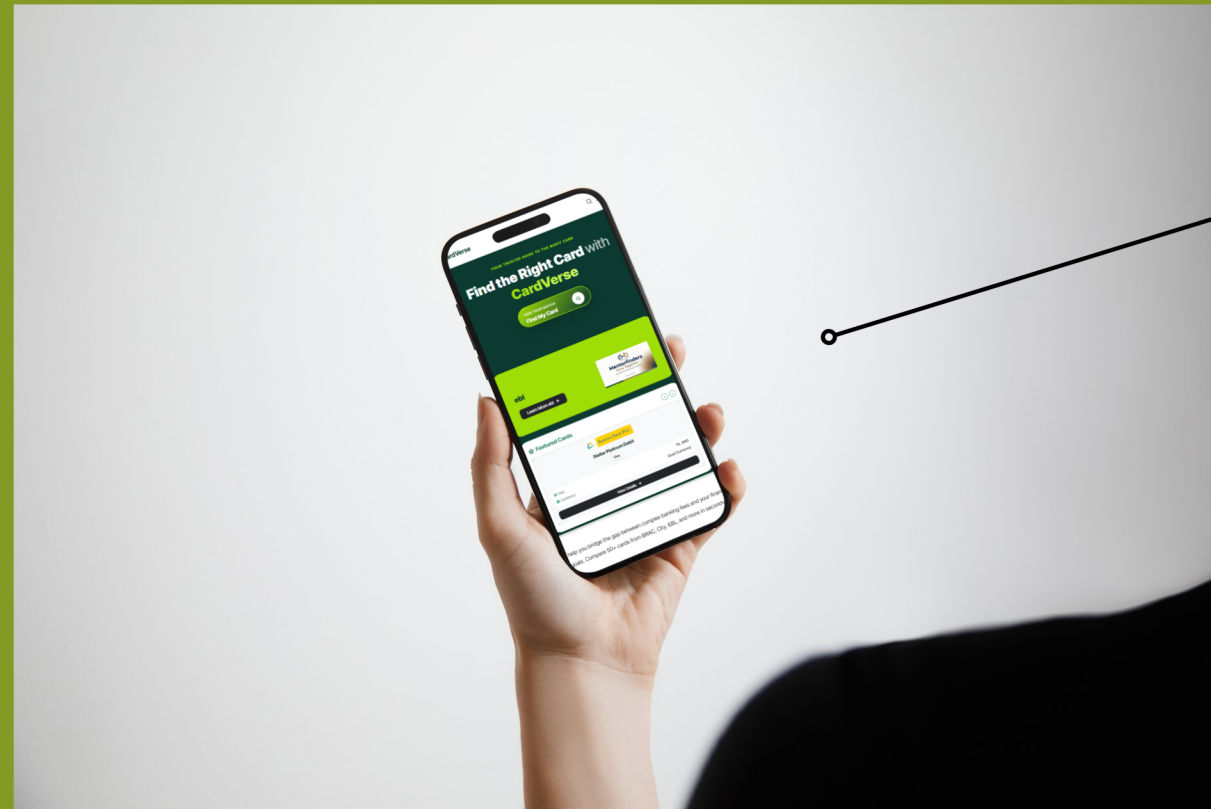

## THE CONCEPT

*The core concept was to move beyond a simple "Retail Website" and create a high-performance comparison engine that empowers users with financial clarity.*

5

# Fintech Website

The primary challenge was to aggregate complex, fragmented data from multiple financial institutions into a single, unified interface. We needed to build a system that allows users to compare intricate card details — such as interest rates, reward points, and annual fees — ensuring they receive tailored suggestions based on their unique spending habits.

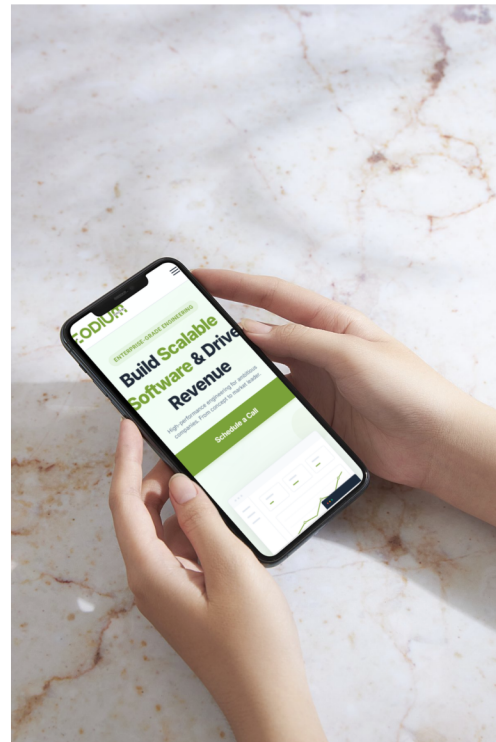

# Why Industry Leaders Choose Codium Digital

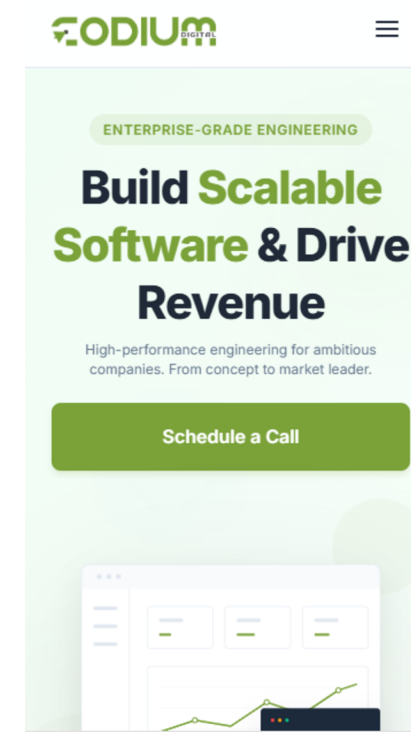

## Outcome-Obsessed

*Every project begins with a deep dive into your business goals, not just your technical needs.*

## Structured Excellence

*We operate with a clear scope, defined milestones, transparent pricing, and a commitment to timely, elite delivery.*

## Long-Term Reliability

*We don't just hand over code; we build lasting partnerships through ongoing support and strategic evolution.*

**Let's Build the Future Together**
